Roach Treatment Prep Sheet

Important: Clean, wash, and vacuum all areas before treatment is applied.
DO NOT WASH IMMEDIATELY AFTER TREATMENT.

Kitchen Area

1. ALL CABINETS MUST BE BLEACHED AND SCRUBBED BEFORE TREATMENT.
2. Clean all countertops.
3. Remove all contents from cabinets and drawers including underneath kitchen sink, pantry, and counter tops.
4. Place all items in the middle of the floor or on top of the kitchen table and cover with a sheet and/or plastic.
5. Make sure all food is sealed in closed containers.
6. Leave all cabinets open and drawers removed.
7. Pull the refrigerator and stove away from the wall.
8. Remove all pets' food from all open areas. (Including dishes)
9. Move all items away from baseboards about one foot from the wall.

Living Room & Bedrooms

1. Pull items/furniture a foot to two feet away from the wall.

Bathroom Area

1. Empty all cabinets, drawers, and underneath sink.
2. Remove anything on countertops.

Laundry Area:

1. Please remove all clothes from the laundry area and any other storage. (Including bicycles, lawnmowers, boxes, etc.) Place outside during treatment.

Closet Area:

1. To successfully treat your home, the closets must be emptied of all contents to treat along the baseboards.

General:

1. Remove all pets (including reptiles) from the house. (NO EXCEPTIONS).
2. Fish aquariums, please unplug from wall and cover with a sheet or plastic.
3. Please remove children's toys from the treatment area.
4. Be patient, our treatment is very effective; however, it may take some time to work.
5. Please clean all dead roaches.

PLEASE DO NOT:

1. Do not use strong cleaners around the treatment area, if you need to clean areas that have been treated, use a vacuum, or sweep for at least 30 days. The product will last 30 – 60 days.
2. Do not "bomb" or "spray" anything after you have been treated.

After Treatment:

1. Please clean up all dead roaches found with a vacuum or broom.

PRECAUTION: When insecticide treatments are applied to enclosed areas or continuously occupied living of working spaces, people should vacate for 2 hours. Pets should vacate for 4 hours. Pregnant women, children under 2 years of age, and people with respiratory problems or health concerns should vacate for 6 hours and consult their doctor. Pet birds should be out for 24 hours. Fish aquariums, please unplug from wall and cover with a sheet or plastic.

****PREGNANT WOMEN AND CHILDREN AGED 2 YEARS AND YOUNGER MUST VACATE FOR 6 HOURS****
